PREPARING FOR YOUR WEDDING DANCE LESSONS

Your song

Your first dance song should mean something to both of you. Depending on your level of dance experience, a song with a clear, steady beat will make dancing together much easier for you.

Quality vs Quantity

The ideal length for a first dance is two-three minutes. Any longer and your guests may get distracted. A brilliant short dance is much better than a mediocre long dance; it's got more impact and you'll look more confident as you'll know the steps better as there are less of them to remember. If your song is a little on the long side ask your DJ to fade the music or invite your guests to join you on the dance floor for the rest of the song.

Commission Danceworks dancers to bring a unique entertainment experience

Individuals / Groups / Pas de Deux / Flash Mobs

At Danceworks we have many professional and highly trained dancers who can perform choreographed routines that combine music and movement in an energetic and captivating form of entertainment.

We offer a range of traditional, classical and contemporary dance styles, including elegant Ballroom styles, Street dance/Hip Hop, Bollywood, Bellydance, Latin American styles including Argentine Tango, Spanish Flamenco, Charleston plus many more.

'Spontaneous' Flash Mobs are a great way to surprise and delight guests and make a fun addition to any reception with our professional dancers and choreographers, we can create and perform an unforgettable experience. Our dancers could appear to be venue staff, only to burst out into a perfectly choreographed dance which sets the room on fire and propels guests onto the dance floor.

Our performances can be adapted to any venue and event - whether it is a solo belly dancer to surprise guests, or classical ballerinas to add grace and elegance, or a full-on flash mob to blow the roof off. Danceworks dancers provide an energetic, engaging and highly entertaining show for your big day.
